Printed in Canada

ENERGI is not responsible for any errors or omissions, and reserves the right to modify design, characteristics and products without previous notice.
EXCELLENT DURABILITY
- Frame made of wood and PVC ensuring exceptional stiffness. Slides are reinforced with steel for added rigidity.
- Screen door with extruded aluminum frame and fiberglass mesh for increased service life.

EFFORTLESS OPERATION
- Rugged self-lubricating inline tandem rollers ensure easy sliding patio doors.

SUPERIOR ENERGY EFFICIENCY
- Self-draining sill with double flex seal which surrounds the entire 1” (25.4mm) thick IG unit for an optimal seal. High-performance 1.4” IG design provides superior water tightness and drainage.

LOW MAINTENANCE
- PVC requires minimal maintenance and anodized aluminum is corrosion-proof.

SECURITY COMPONENTS
- Optional twin-point mortise lock reduces the risk of break-ins.
- Options available for added security: exterior key lock cylinder, foot lock, stop guard lock and security bar.

STYLE OPTIONS
- Garden door with embossed panels
- Decorative handles with a choice of 10 finishes
- Internal multipoint locks and handles available
- Several glazing and decorator grid options
- Sidelites and transoms available
- Wide colour selection and available custom paint program to match your decor.

PERFORMANCE (CANADA)
The Performer HP® patio door meets or exceeds the following standards:
- CGSB-82.1-M89
- AAMA/WDMA/CSA 101/.1 S.2/A440-08
- Size Tested: 71” x 81 1/8” OR XO
